This gorgeous mountain home sleeps eight plus two children in five bedrooms, making it the ideal property for families or a group of friends. Every detail has been considered, from the sophisticated lighting to the inbuilt sound system, the beautiful textiles and the traditional wood throughout. So much care has been taken to ensure every guest staying in every bedroom is enveloped in a calm and cosy atmosphere. Tradition meets modernity in this perfect mountain retreat.

The chalet spans five floors and there is both a shared elevator linking all floors but the top one and stairs linking all the floors of the chalet. Entering from your vehicle into the underground garage you find a beautiful foyer with bespoke lighting in woodland hues, here you can drop your skis and there is a dedicated boot room complete with boot warmers.

Up to the ground floor entrance there is a large cloakroom for you and your guests when you come in from the cold. Also on this level are three individually designed double bedrooms. All en-suite, two with an en-suite shower room and one with en-suite bathroom. All of these rooms can be configured either as a double or twin according to your group's needs.

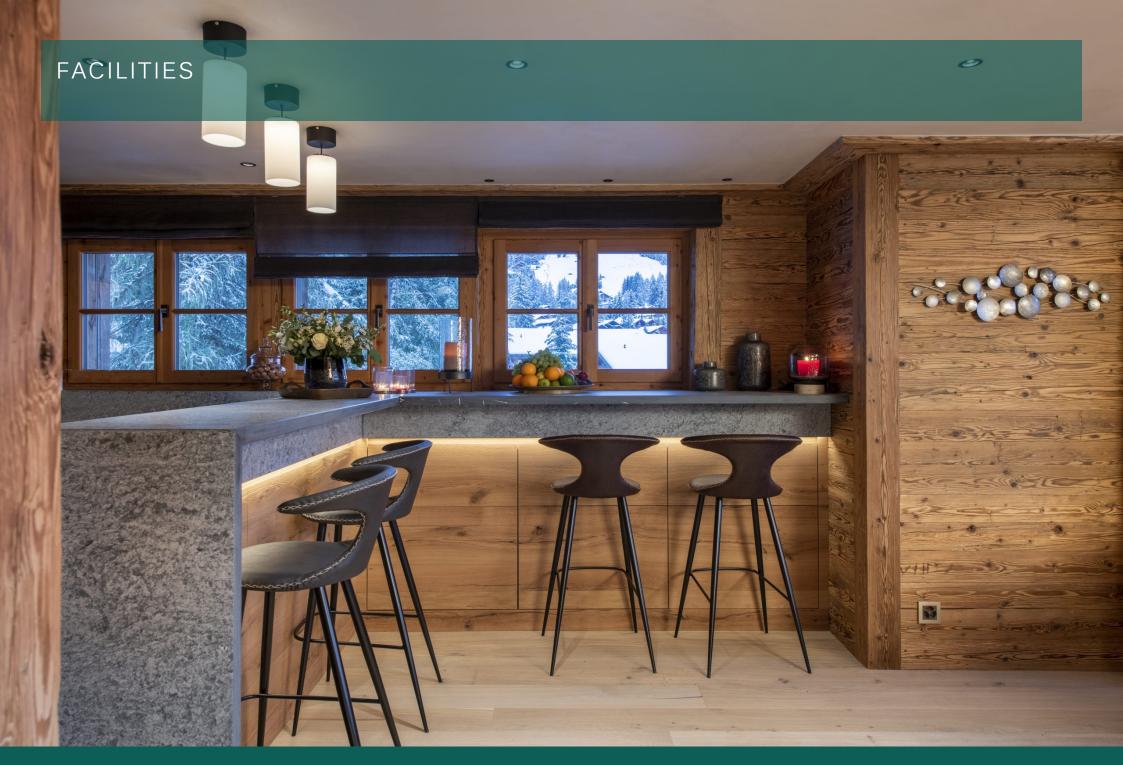

Taking the stairs up to the first floor you reach the impressive open plan living and dining area and the kitchen. The views from this stunning living area are so perfectly aligned across the valley to Mount Rogneaux that you could imagine the designers placed the peak there themselves!

There is a large central fireplace welcoming you into the room, with ample seating for the whole party. This is the perfect space to snuggle down with a drink and while away the evening. The elegant dining table seats ten and the kitchen is equipped with every modern appliance, amateur chefs won't be disappointed and if you have booked the chalet catered you will be able to watch our chef create your meals in style.

This floor has a wrap-around balcony with a hot-tub accessed by floor to ceiling sliding doors so that you can enjoy your morning coffee or early evening apéro in the beautiful mountain air.

Up one more level is the incredible master suite. The king-sized bed rests under more stunning wooden beams and taking in those views, there is an adjoining dressing area large enough to store all of your ski and après ski wardrobe. You will love the en-suite bathroom which has an incredible steam room, double sink and best of all a beautiful bathtub with a built in window so that you don't miss out on those mountain views, it's the best view from a bathtub ever!

One more level to go up and the cutest of all, under the eaves, a dreamlike twin children's room, with en-suite shower. The children have a cosy reading nook and natural light floods in from 'on-top-of-the-world' windows. This chalet is perfect from top to bottom.
